## DESTINY

Hand held metal detector **ELEKTRON-POWER SCANNER-3010BC** it is high-sensitivity, specially designed to detect both magnetic and non-magnetic objects. It is designed to detect firearms, knives or other small metal objects.

## SPECIFICATION

- Very aesthetic and ergonomic detector housing, easy operation
- Specially built for demanding customers for a detailed examination of people and luggage, especially in penitentiary institutions
- Detects all types of metal
- Flawlessly detects all metals, even very fine (needles)
- Unprecedented sensitivity for non-ferrous metals (gold, silver)
- Belt clip included
- It has a very high sensitivity and stability of operation in all conditions (no false alarms)
- Resistant to the build-up of electrostatic charges on clothing
- Modulated detection signaling depending on the size of the detected metal object
- Two operating modes: high and low sensitivity depending on the requirements

## TECHNICAL PARAMETERS

- Power supply: dedicated 7.4V lithium battery or 9V battery
- Ultra long standby time: about 100 hours, with a dedicated battery for 500 hours
- Service temperature: -20 to + 65 ° C
- Relative humidity 0-95%
- Size: 350mm x 80mm x 60mm
- Weight: approx. 200 g
- Material: Impact-resistant ABS plastic
