DESTIN

Handheld metal detector **ELEKTRON-ES-RVM-2020** it is a high-class detection device, designed to meet the requirements of the security industry. It is used at airports, border crossings, mass events and wherever it is possible to bring dangerous metal objects.

SPECIFICATION

- Very aesthetic and ergonomic detector housing, easy operation
- Perfect for complementing gate metal detectors for detailed examination of people and luggage
- Detects all types of metal
- Flawlessly detects all metals, even very fine (needles)
- Belt clip included
- It has a very high sensitivity and stability of operation in all conditions, no false alarms
- Resistant to the build-up of electrostatic charges on clothing
- Possibility of discreet detection, mounted acoustic signal switch that automatically activates vibrations, the traffic light remains
- Two operating modes: high and low sensitivity depending on the requirements

TECHNICAL PARAMETERS

- Supply voltage: 9 V standard battery or rechargeable battery
- Power consumption: 290 W
- Working frequency: 95kHz
- Working current <50 A
- Working voltage: 7.8V - 9V
- Operating temperature: -20 ° C to 65 ° C (excluding power supply)
- Net weight: 409 g
- Dimensions: 41 cm (L) x 8.5 cm (W) x 4.5 cm (H)

Possibility to buy a battery pack and Chargers.
